## Market News

NEW YORK, April 19.—Apart from oil and petroleum shares, which were unusually prominent at cross gains of 1 to 2 points, today's market was dull and reactionary. Buying of the oils seemed to emanate mainly from bull pools and similar professional sources and, probably had its basis to a considerable extent on the announcement of further price advances for crude.

Contrary conditions doubtless accounted for the marked heaviness of other issues, such as sugars. There were under intermittent pressure as a result of cuts in the raw and refined products, coupled with adverse dividend rumors.

Extreme declines of 1 to almost 5 points accompanied the lethargic movements of steel, equipments and several unclassified specialties. Shipbuilding and rails also recorded irregular but moderate reversals, the latter making no response to the proposed probe of transportation conditions by a senate committee. Sales, \$4,000,000.

Money rates showed a slight relaxation, call loans on the exchange easing to 6 per cent in the latter part of the session, despite further liquid withdrawals from the local federal reserve bank.

The ultimatum of the allied reparations commission demanding transfer of Germany's gold holdings to Cologne and Cologne probably had some bearing on the day's movements in foreign exchange. Rates on London were comparatively steady, but remittances to all continental points favored this center, including German marks and Austrian kronen.

In the bond market, conditions were of a pace with the uncertain tone of stocks. Liberty issues closed at mixed gains and losses, rails continued to show international backed definite trend. Total sales, par value, were \$3,400,000.

CHICAGO, April 19.—Wheat declined today to the lowest price yet which July delivery has touched this season. Big receipts northwest and improved weather conditions were the chief apparent reasons. The market showed little power to rally. The opening quotation which ranged from 1 1/4 to 1 3/4 cents lower, with a 1 1/4 to 1 3/4 and July 1.03 1/4 to 1.04 1/4, were followed by moderate further losses.

Corn sympathized with wheat. After opening 1/4 to 1/2 cents lower, including July at 60 to 60 1/2, the market continued to sag. Oats also were depressed, starting 1/4 to 1/2 cent down, July 37 1/4 to 37 1/2, and then dropping still more. Provisions averaged about steady, the same as horses.

## CLUB SPORT AND PHOENIX ARMORY KIWANIS SUBJECTS

"He is a Kiwanian. He is clean inside and outside. He neither looks up to the rich nor down upon the poor. He is too brave to lie and too generous to cheat. He takes his share in the world and lets other people have theirs. He is a Kiwanian."

In the foregoing words the Rev. James A. Stavey, pastor of the First Methodist church, who is one of the newer members of the Kiwanis club, summed up an address on "What I Have Found in Kiwanis." The address was delivered before the members of the club at their weekly luncheon yesterday at the Y. M. C. A. His remarks formed a resume of his impressions as a member of the organization during several weeks.

The Rev. Stavey's address was only one of a series which made the luncheon one of the most enthusiastic in weeks. The speech of the day was delivered by Col. H. A. Hanigan, U. S. A., instructor and inspector of the national guard of Arizona, whose subject was the proposed armory on the corner of Broadway and Washington. The authorized strength of the national guard is 850 men. There are now only 380 men enlisted in it. The speaker pointed out the importance of the armory in the general apathy of the public and their unwillingness or inability to see for themselves the necessity of having a properly equipped national guard. Phoenix is given by the government one machine gun company and one company of infantrymen.

The national guard is a necessity. It is highly essential; in fact, for there must be in every community a moral force capable of enforcing the law when the ordinary agencies have failed, or of assisting in a particular manner when calamity or catastrophe has visited us. This valuable force may be kept in Arizona by giving the Kiwanis the armory for which they are asking.

The present quarters of the national guard are totally inadequate. The building is old, there are no shower baths, no place in which the guardsman may change his uniform, and it is insanitary. It smells. The Kiwanis club can assist the situation in a definite way. The national guard is asking you simply to help.
